

# Organic spirit from Fedje!

*The craft distillery Feddie Ocean Distillery is based on Fedje, a beautiful island district in Norway's Nordhordland. Here we make organic whisky, gin, and aquavit.*

Our approach to aquavit is strongly influenced by the fact that we are a whisky producer. We mature all the different components in casks separately. Afterwards, we blend to bring out the best qualities in each component. The result is a cask-aged aquavit with a high concentration, clear herbal notes, and a rich and well-balanced cask influence.

## Feddie Fatlagret Akevitt

### Ingredients

Organic wheat spirit, caraway seeds, fennel, cinnamon, angelica, citrus peel, iris root, fireweed, sugar kelp, licorice root and galangal.

### Taste

Aromas of rich spices and citrus, and caraway gives an aromatic boost. Under the spice note, the cask adds aromas of cocoa, oxidized fruit, walnut and tropical fruit. On the palate this aquavit is soft and rich, the cask influence brings out chocolate, deep fruit, some dried flowers and anise. It offers a rich mouthfeel with dark berries, oat biscuits, citrus marmalade, and hints of angelica and finishes with caraway and baking spices.

### Production Method

Organic wheat spirit is redistilled in a pot still and column still with certified organic botanicals.
