

## Ecological spirits from Fedje!

The craft distillery Feddie Ocean Distillery is based at Fedje, a beautiful island district in Nordhordland. Here we produce ecological gin, aquavit and malt spirit for whisky.

Caraway is an exciting ingredient with broad aromatics. With the help of various types of citrus peel and other botanicals we have produced a clear aquavit that has many qualities, but where the caraway provides both the upper tones and the bass.

### Feddie Ocean Clear Aquavit

#### Ingredients

Ecological wheat spirit, caraway seeds, fennel, cinnamon, angelica, citrus peel, orris root, willow herb, sugar kelp, liquorice root and galangal.

#### Tasting description

Focussed aroma with distinct caraway and citrus peel. Hint of angelica and herbs.

Smooth and rich mouth feel with clear caraway and citrus. Finish with liquorice root, angelica and warm herbs. Nuanced and complex, with a long aftertaste..

#### Production method

Ecological wheat spirit is re-distilled in a pot still and column still with certified ecological botanicals.

#### Perfect serve

4 cl Feddie Ocean clear aquavit, high-quality Indian Tonic Water (we use Fever Tree or the Norwegian Headless Horseman), lemon peel as garnish.

#### Product info

EPD nr.	6050249
