

Organic spirit from Fedje!

The craft distillery Feddie Ocean Distillery is based on Fedje, a beautiful island district in Norway's Nordhordland. Here we make organic whisky, gin, and aquavit.

Caraway is an exciting raw material with a wide aromatic range. With the help of citrus peel and spices, we have created an aquavit that plays on many strings, but where the caraway gives both top notes and bass.

Feddie Blank Akevitt

Ingredients

Organic wheat spirit, caraway seeds, fennel, cinnamon, angelica, citrus peel, iris root, fireweed, nori, licorice root and galangal.

Taste

Aromas of caraway and citrus peel. Hints of angelica and herbs. Soft and rich mouthfeel with distinct caraway and citrus. Finishes with licorice root, angelica and warm spices. Nuanced and complex, with a long aftertaste.

Production Method

Organic wheat spirit is redistilled in a pot still and column still with certified organic botanicals.
