

Ecological spirits from Fedje!

The craft distillery Feddie Ocean Distillery is based at Fedje, a beautiful island district in Nordhordland. Here we produce ecological gin, aquavit and malt spirit for whisky. Our distillers ensure that our products constantly are of high quality. Our gin distiller, Therese Østervold Storebø, is also a recognised cocktail bartender, which ensures that our recipes are created with thoughts of how the products are to be used.

Nine Sisters Ocean Gin

Ingredients

Ecological wheat spirit, juniper berries, coriander, cinnamon, angelica, liquorice root, orange and lemon peel, cardamom, orris root, pine shoots, rosé pepper, rosebay willowherb and sugar kelp.

Smaksbeskrivelse

Delicate and aromatic scent with clear juniper berries, citrus and flowers. Fine finish with some liquorice-root sweetness. A rounded and modern gin with a long aftertaste.

Production method

Ecological wheat spirit is re-distilled in a pot still and column still with certified ecological botanicals.

Perfect serve

6 cl Nine Sisters Ocean Gin, high-quality Indian Tonic Water (we use Fever Tree or the Norwegian Headless Horseman), lemon peel as garnish.
